# EXIT STRATEGY

The value of your fraction will increase with the property value and you can sell at any time to profit from this capital growth

Properties at the Halcyon Hills Luxury Resort are currently available at **under completed market value**. One of the many benefits of buying at this off plan stage means you are able to witness the **increase in value of your property** as the building works progress and complete.

Greece enjoys a **strong domestic market** (11% is UK sourced), protecting it from outside influences and, as a more traditional holiday destination, **demand is consistently high** for luxury residential and investment property.

Proven demand for luxury rental properties on the island means that from the day of completion **your property is returning an income**. After the guaranteed rental comes to an end, the resort will be sufficiently established to generate **ample rental returns**, making your property a desirable purchase to those looking to either buy for an investment or as a lifestyle choice.

The addition of the exclusive marina exemplifies the five star ambience of the resort and distinguishes it from existing resorts on the island, creating a **uniquely desirable holidaying experience**.

\* The developer will pay 5% interest on the initial deposit for a maximum of three years or until completion, whichever is soonest. Halcyon Hills is not responsible for the repayment of any loans or mortgages and your property is at risk if you do not keep up repayments or loans secured upon it. Terms and conditions apply. The 50% finance will be offered on a non-status basis and is subject to terms and conditions. Should a client fail the application of the Greek mortgage then they will either receive a full refund or a guaranteed end mortgage through the developer to cover the balance.

\*\*Unlimited usage applies only if the property owner has opted out of the guaranteed rental option.
